

Hands of Hope Celebration

Dear Community Supporter and Friend,

We've all heard the saying – "Not all heroes wear capes." And it's true. Most heroes are average people, with no traditionally "superhuman" powers. They have to be more resourceful while saving the world than Superman or Captain America. They must rely on their tenacity. Their creativity. Their innate ability to put others at ease. They must demonstrate compassion, a commitment to justice, and to paving the way for victims to begin to heal.

Before the development of the Child Advocacy Center model, the voices of abused children were often unheard, and the crimes committed against them were rarely prosecuted. These children were left feeling as if no one believed them and their abusers frequently went on to abuse others.

With **Child Advocacy Centers in every county in New Hampshire**, whenever there is a concern about a child's safety, our **multidisciplinary teams** can fully investigate these crimes and connect children to specialized medical care, trauma-focused behavioral health counseling and other social supports. In the end, more offenders are prosecuted, our children survive and recover, and our community is safer for all children.

On Friday, April 7, 2023, the Child Advocacy Centers of New Hampshire and their chapter organization, the Granite State Children's Alliance, will come together to celebrate men and women who go above and beyond in their roles on those multidisciplinary teams to support child abuse victims and work to keep them safe.

The center from each county honors their own **Everyday Hero**, someone who embodies leadership, ingenuity, kindness, who is steadfast in their commitment to New Hampshire's most vulnerable children – who shows up for kids. *Every. Day.* We will also name our **Statewide Everyday Hero of the Year!**

We would be incredibly grateful for your support in recognizing the extraordinary efforts of these dedicated heroes by sponsoring our **10th Annual Statewide Hands of Hope Celebration** and banquet at Mill Falls in Meredith, NH.

Each year, over 2,000 cases of child abuse are investigated through Child Advocacy Centers across New Hampshire – and for every child who discloses their abuse, there are nine who do not. **We believe that through increased awareness and education, we can support more of these children, and ultimately, abuse is preventable.**

In the meantime, we have Everyday Heroes who step up for kids who need champions – people who will go the extra mile to help them on their journeys to **heal, survive, and thrive.**

Thank you for considering supporting the 2022 Hands of Hope Celebration!

With gratitude,

Hands of Hope Celebration
